[illegible] Manufacturing for Ks. Garden R

Eczema (for Dyspeptics)

First procure some strong bottles (preferably such as have patent rubber corks) & wire for retaining them or quart root beer bottles. It is better to prepare about six quarts at one time.

℞ To each quart of fresh milk add an ounce sugar and a piece of compressed yeast about the size of a pea. The bottles should be nearly filled with the mixture and stand uncorked until fermentation is well established or about 18 to 24 hours under favorable circumstances. They should then be corked & wired & placed in the cellar for a week or two when the product is ready for use. Another account says that when you wish to make use a moderate quantity in the bottle of the old liquid and no additional yeast is required.

(N. Y. Times)

(Corn Silk)

For dropsy & bladder troubles

℞ Two double handfuls of fresh corn silk boil in two gallons of water to one gallon add sugar to make a syrup. Dose one tumbler three times daily. Treatment may be continued for months if required.

(Louisville Medical News)

D Cook. Calves was brought on my farm about Jan 1st 1884

Two Cows was brought about march 10 1884, ~~Jan 1884~~ Four more about march 18 1884. Cows was brought without consent. I asked him to give him the right to bring one some of his that had come in and take back as many of mine that had not come in. I told him to wait till I came up next time and we would see about it: he gave consent. When I went up next time found six cows three of his. Dont know when he brought first two as they was there when I went up the first time that was which was about march 10 He said one was for one. Claimed he fed his own hay Saw him drawing about 6 hundred then when I went up about march 10

Saw his hand bring over about 150 lbs on wagon but at second time - hired man he said had been over to draw wood for self on D.S farm

Remember snow bank on hill when they could scarcely get on with load as it was so high & sliding

Monday Evening August 10. 1885

Had a conversation with Cowgill Parker This Evening in regard to to a certain Mortgage Made by R P Scofield and in favor of Chilas & Madison of This place. Aforesaid Merchants. Said Mortgage was On a piece or parcel of Land held by me on Warranty Deed and containing 54 and a fraction of acres of Land in DeKalb Deeded to Me by Said R P Scofield & Elmira his Wife & being in the Town of DeKalb. Parker Says I am glad on your account and Sorry on The firms account. Sat-ur Last-Friday They were Closing on their Matters in regard to their Liabilities With Said R P Scofield and found a Mortgage of $2010 against the Said 54 acres and a fraction. He Parker Says That did not know of Said Mortgage or had forgotten it-till They found it-Friday but That They did not remember Whether it was discharged or not. Parker Says That A A Madison told me This Morning That They had Written to The County Clerk and That he had received a reply This Morning That Said Mortgage was discharged of record & Parker Says That he could not have told me of This had not The facts have been as above Stated and much More besides

Never eat more than you Relish

Often eat less than you Relish

When out of Sorts with Scanty
Appetite eat less than you want
however Small the amount may
be that you want until the Stom-
ach be Rested. This is far better
than all tonics. Continue this
however long a time it may require

After Several days can eat Trial
Carefully made in this way you
may Still continue it rigidly &
and add as an adjuvant
Some tonic as Quinine or
Strychnine is more use Spirits
for this purpose. Ot Spurs the
Stomach into a purely temporary
activity but gives no real tone
to it. The flower is promising
but the fruit is disappointing
It simply Encourages one to Over
load the Stomach with more
than it will or can digest Will
often when Dizzy Sick nervous
Coated. bowels Sluggish and
require Cayatives or more by them
Eat less and continue to do so
until relieved. So this when any
of the protean Symptoms of
Indigestion appear and continue
until relieved

When this course is thoroughly
pursued your head will be
clear Eyes Steady Nerves cool
Pulse Low will be Quiet

Weather Data for 1875 & 1876

Very cold and backward Spring following one of the coldest and most blustering winters that I ever knew. Cool summer but good crops. Very cold and disagreable fall. Warm weather left us Sept 17th an we saw no more of it during the fall Sleighing Commenced Nov 29 and continued till the 21st of December or 22. Thermometer was below zero for 2 or 3 days in Nov. After that the weather was comfortable for winter until the 18 of December when the thermometer went from 8 to 16 degrees below zero. Sunday the 19th below all day and at night was 30 to 32 below. I was out from home twice during the night. Dec 20 warmer, 21st still warmer and thawing and raining quite fully. The thaw continued until the Sleighing was all gone and mud was 2 or 3 inches deep. Then the weather turned cold and froze 24th. Wind south 25 and warm raining some. Thundered once. After this for 3 days weather changable but warmish and very pleasant Since the warm weather commenced all through it has turned like Spring. Crows seen about this time 29. Wind generally South all through this warm Spell. 29. 30. 31 & Jan 1st & 2d warm wind South except one day when it veered to the North. While north the thermometer went down only to 40° & 44°. Has not frozen for the past 4 nights Sap runs. Jan 1 & 2d Frost out of the ground and ice out of the streams Cattle &c Chickens crowing and Cackling. This open Spell has now Jan 2d Lasted 13 days. Wind last night and today blows a gale from the South. Roads almost impassable The highest temperature that I have seen has been 64° others claim it to have been nearly 70. It has been above 44° most of the time. Have found Some pansies Some of which were quite fresh today Plowing might have been done on grassward for a number of days. Jan 3 W S W 36 to 40 Evening freezing 11 PM 22° Clearish. No Snow 4 Thursday 4° above zero Clear as a bell all day Noon 10° W.N.W. Evening 7° very Clear 5th Clearish. Temperature 22°. W East.
